

Yappy New Year!

We can't believe it's nearly half way through January already.

Welcome to Webster's first newsletter of the year packed with updates and information.

Covid

Our Covid update is 'Business as Usual' as we are classed as essential.

Ordering through the website provides the opportunity for contactless payment and our deliveries are made using the 'knock & drop' method making it as safe as possible.

New Products

We are pleased to announce that due to the success of our Christmas treat boxes, we are adding a permanent range of assorted styles. Watch the website for more details or check

in on our Facebook page. Orders can be taken via either route.

Food Focus

How Chicken powers your dog. It is considered a lean meat and it provides many benefits to our canine companions. They need protein as a main energy source and chicken provides that boost without a big calorie count. It builds lean muscle mass in dogs and also provides Omega 6 fatty acids that help sustain healthy skin and shiny coats. A great source of essential amino acids and glucosamine which helps to promote bone health.

The chicken used in our best selling Grain Free recipe is pure meat NOT by-product or chicken meal as is often used in other brands. With a whopping 55% total chicken content and responsibly sourced in the UK, we are confident that you and your dog will be left smiling at meal times!!

Samples are available and can be posted out if you would like to try our Grain Free Chicken with Sweet Potato and Herbs. Reply to this email to let us know.
